Anonymous Survey Questions

My family has a safety plan to return to work and play when the Coronavirus social restrictions are relaxed

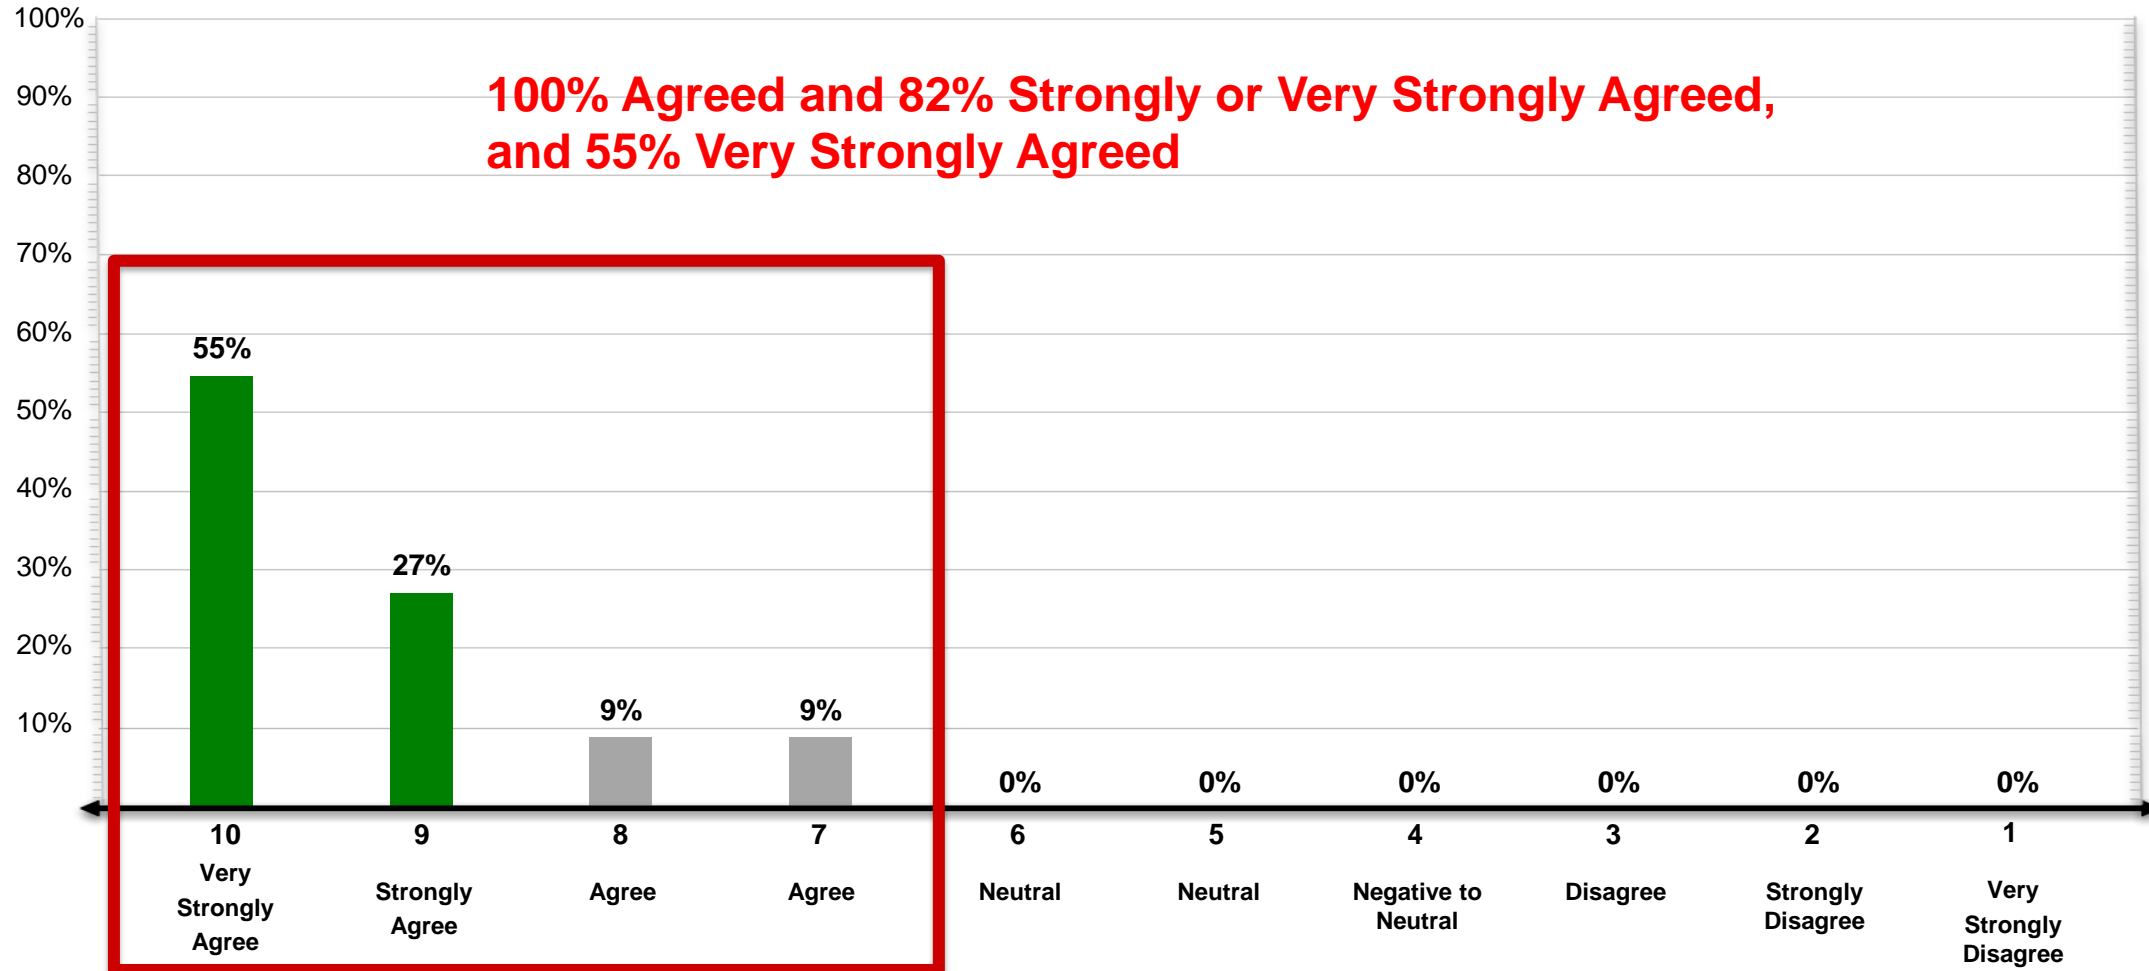

Source: TMIT Global High Performer Webinar- Care of the Caregiver: Loved Ones Caring for Loved Ones – October 15, 2020

What information would help your family return to the new normal (Recovery)?

- I'm unsure of whether we know this yet.
- Developing coping skills for new normal
- Consistent, validated information, to include vaccinations
- description of new normal
- belief in the source of the " new normal"
- We never stopped working.....nor did we get the extra "unemployment" or four month paid vacation. We are living the new normal - frontline and ALL hospital staff.

Anonymous Survey Questions

My family has a plan to make them less vulnerable to epidemics in the future

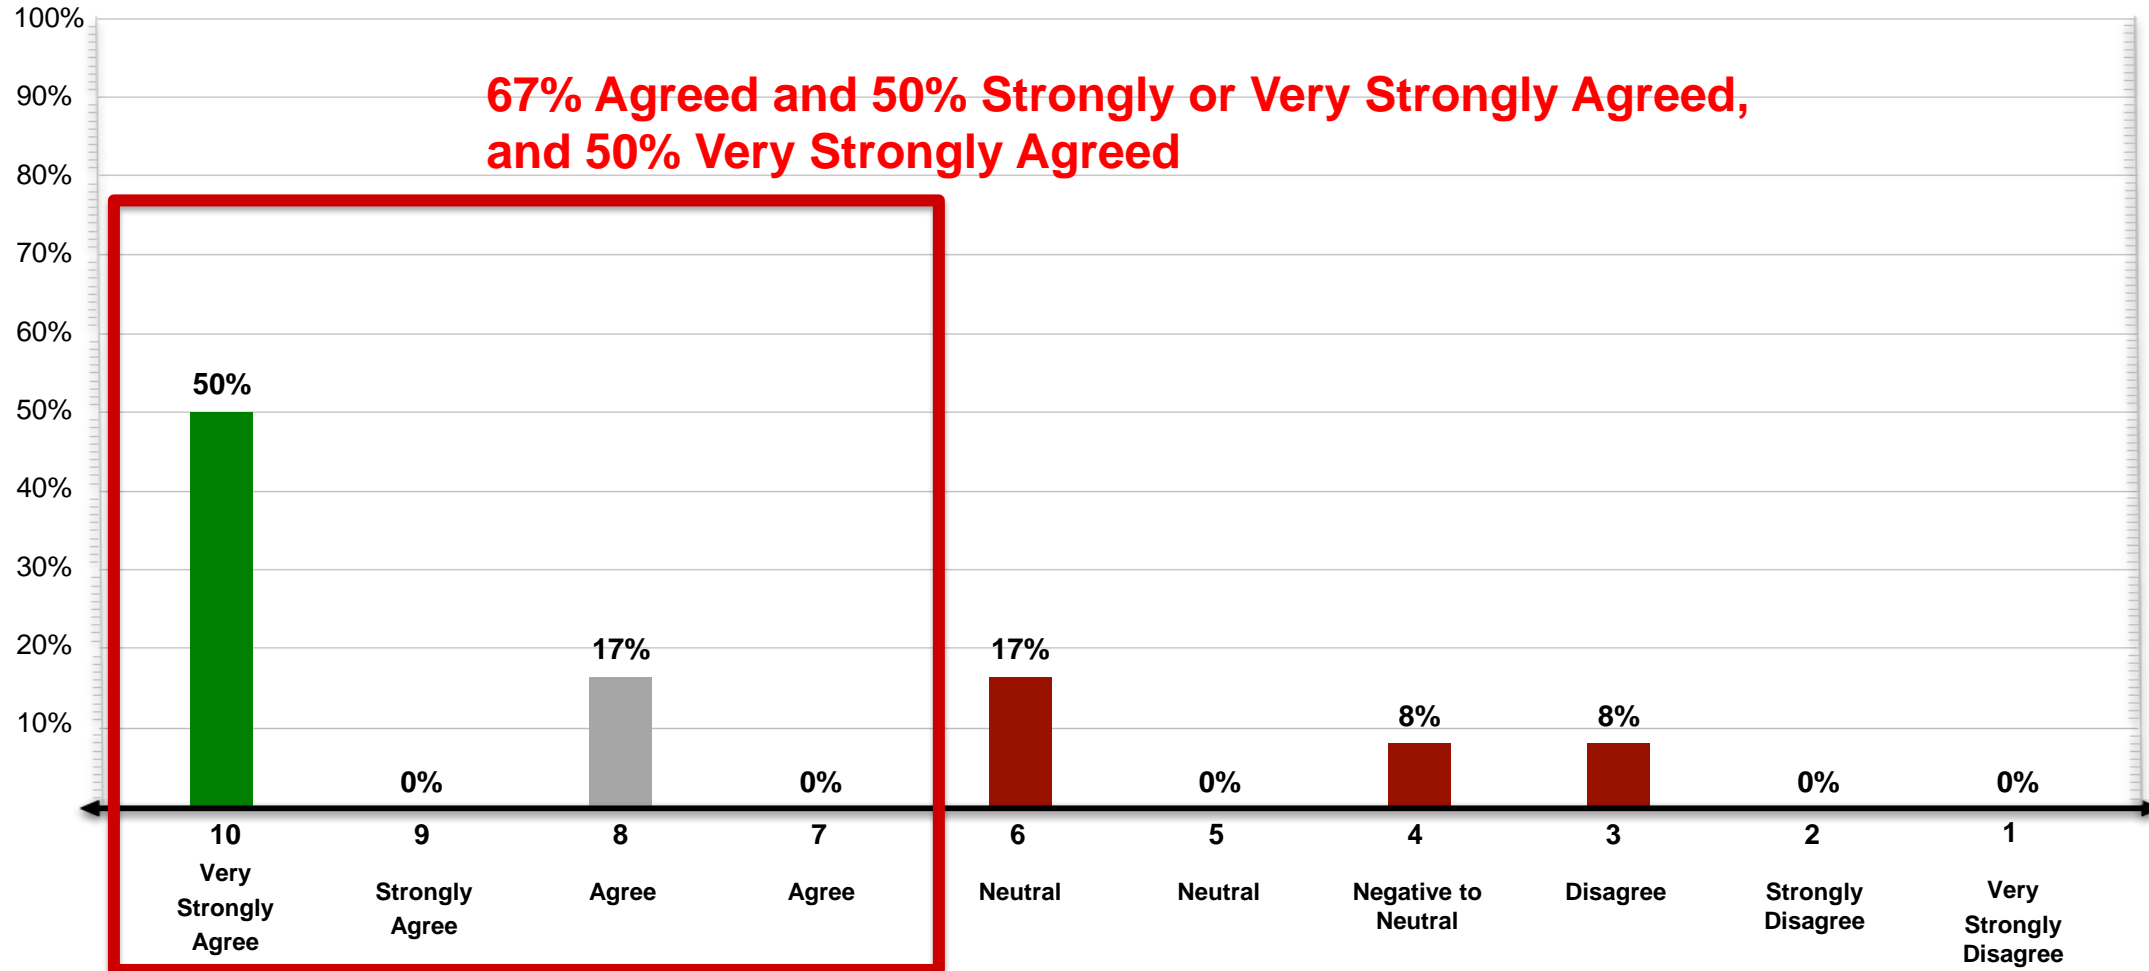

Source: TMIT Global High Performer Webinar- Care of the Caregiver: Loved Ones Caring for Loved Ones – October 15, 2020

What information would help you become more resilient in the future?

- Information is powerful.
- Support for children
- Easily, accessible, current proven data/info
- Better work hours - work at home
- Ability to believe leadership in government and healthcare
- Eliminate the media speculation and misinformation - they really screw
- In order to build a Hospital as a "Fearless Organization" it appears to me that you would need to integrate both High Reliability Organizations and Just Culture principles. How can this be done.

Anonymous Survey Questions
